

Supraloft®

Diffusion Products

*Columbus Industries' Supraloft®
Diffusion Products are the perfect
solution for many filtration applications*

Description:

The CI Diffusion Product Group offers a variety of filters that create the desired airflow uniformity by diffusing the airstream while providing the first stage of filtration by removing potentially contaminating particulates. These filters are available in rolls, pads, panels and with or without scrim backing to further protect the object being sprayed.

Features and Benefits:

- Paint booth air intake

Applications:

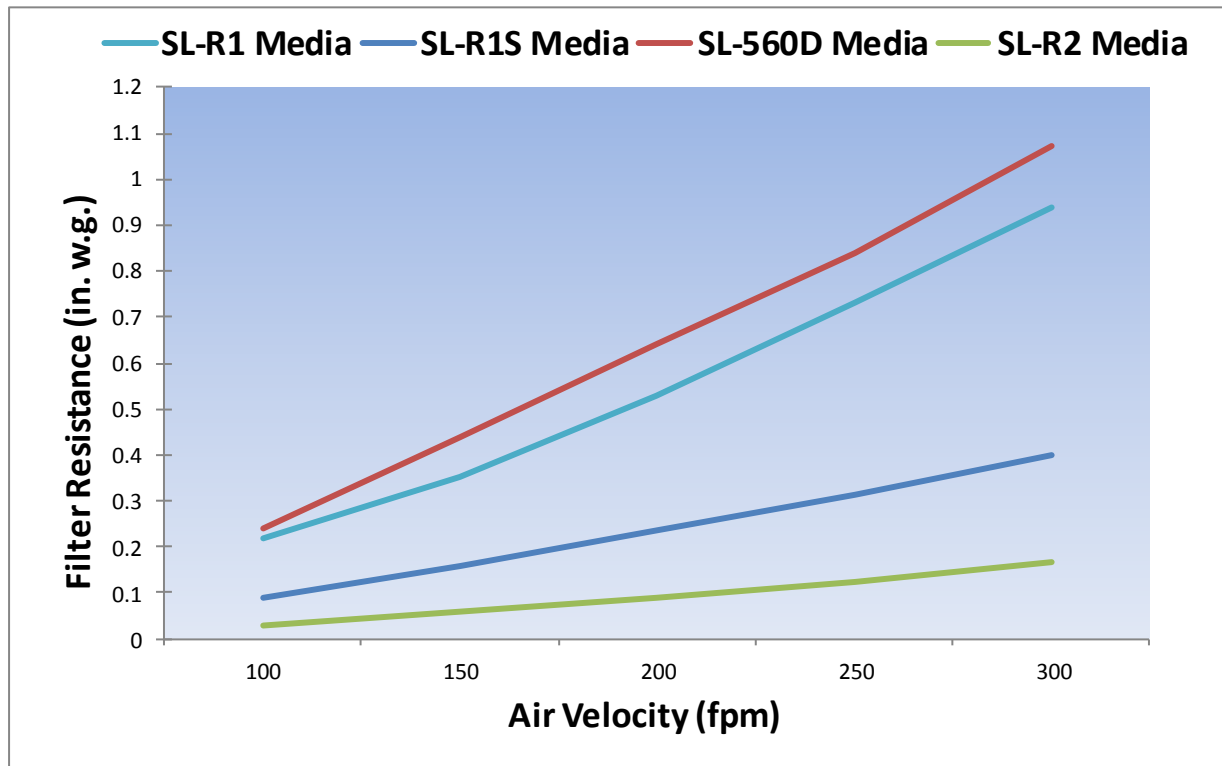

- Available in 560D, R1S, R1, & R2 Medias
- Non-migrating tackifiers are integrated into Diffusion Media to enhance dust holding capacity
- Provides a more even airflow in the booth
- Available in master rolls, pads, panels, & cubes
- Listed UL 900 Class 1 as to flammability only
- EN 779 Efficiency Rating: F-5

Performance Information

Product:

Diffusion Products: SL-560D, SL-R1, SL-R1S (with scrim), SL-R2
